The FoodCycler is Here!

The Municipality is pleased to share that Wawa is participating in the FoodCycler Pilot Food Waste Diversion Program. The FoodCycler is an appliance approximately the size of a home bread machine that breaks down residential food waste by 90% and makes it easier to compost aiming to reduce organics heading to our landfill. Food waste that is sent with household garbage to landfill sites reduces landfill capacity and releases greenhouse gas emissions. The Pilot Program will last 12 weeks and up to 100 households will be eligible to participate. Wawa residents interested in purchasing a FoodCycler and participating in the program may visit www.wawa.cc/foodcycler-municipal-program/ to learn more or for an application to purchase a unit.
